

RM - REMOTE MOUNTED SPOTLIGHTS

Rain, hail or shine, the RM series is always on duty, just ask all our professional users! You are in full control from the comfort of your vehicle or boat cabin with these unique LIGHTFORCE products.

The remote mounted **RM** spotlights are designed for mounting onto the remote control handles **RC150 / RC225** or alternatively fitted to a remote swivel base **RSB / RSBM / RSBS**. The **RM** spotlights are extremely robust and weather resistant allowing permanent roof mounting without fear of sun or rain damage. They are ideal for the professional night hunter, security / surveillance officer, or mounting through the cabin of a boat for night time navigation.

3 REFLECTOR SIZES available

- 140mm '**LANCE**' (Compact but surprisingly powerful)
- 170mm '**STRIKER**' (Our most popular performer)
- 240mm '**BLITZ**' (Simply unequalled power and brilliance)

RM FEATURES:

- 1 Lightweight, hitech engineering polymer construction for extreme strength & durability that has made LIGHTFORCE famous!
- 2 Computer designed parabolic reflector for maximising bulb output and performance.
- 3 Reflector housing rotates to easily tailor beam pattern to suit the operator's requirements.
- 4 10mm bolt pivot point allows elevation adjustment to position light where required.

RM240 WITH RCSBC PUTS YOU IN CONTROL. QUICK AND EASY INSTALLATION WITH NO HOLES REQUIRED.
