Outback's new modular Xrox tube bars are designed for the extreme off-road look and competition use. This exciting new range is designed to appeal to a niche market of 4WD drivers.

Manufactured from high quality steel plate and tube they give the vehicle unparalleled protection from impact.

New design features include:

- 9 x Aerial / sand flag and spotlight tags - to suit various combinations of accessories.
- 2 x Jacking points
- 4 x Hook locations
- 2 x Recovery eye locations
- Increased approach angle
- Airbag compatible mounting system.
- Durable - zinc-coated then powder-coated satin black – Alternative colours also available as optional extra.
- Developed to suit a Warn low mount winch – to 15000Lb
- Modular unit - bar centre available as a stand-alone nudge type bar or side tube wings easily replaced if damaged.
- Mounts available for vehicles with 50mm body lift.
- Reduced freight charges - dimensions:
1 x Carton 70cm x 30cm x 80cm 39Kgs
